/ARTIST BIOGRAPHY

NATASHA JENSEN is a recent graduate from the Alberta College of Art + Design. Her work has been featured in solo and group exhibitions throughout Calgary, Alberta. She attempts to find meaningful connections through objects and relationships.

Image courtesy of the artist.

/CULT OF THE INVISIBLE

The study of the sky in art stems from the centuries-old forced dichotomy between art and science. The skies have mystified and captivated various artists from all cultures and times. A cloud to me represents mystical desire. One can always see the clouds but their ephemeral nature makes them untouchable. We are left forever tempted to try.
