## /ARTIST BIOGRAPHY

JILLIAN DASCHUK holds a BFA in print media from the Alberta College of Art + Design. Her recent practice utilizes found objects and materials to explore and emphasize the mind's unconscious ability to associate facial forms with inanimate objects.

## /BABY RUTH

*BABY RUTH* explores the welcomed quality of pathos through humorous mocking and suggestive thoughts, producing a thick feeling of desperate attention demanded by the pieces. Combining discarded, unwanted objects — inherently pathetic in their abandonment — forces the viewer to acknowledge the character within, garnering sympathy for the work's mundane, objectified existence.
